August 2019

Hello Veterinary and Veterinary Technician/Nurse Student!

We are incredibly excited to announce that the International Veterinary Academy of Pain Management (IVAPM) Student Member/Student Chapter program for veterinary and veterinary technician/nurse schools will be launching at the start of the 2019 fall semester!!!

In order to share and grow our commitment to and passion for veterinary pain management, we are providing free membership for all students and for one faculty chapter advisor at each school. We are so excited about having you join us in our mission to alleviate animal pain that, in addition to your free membership for your time in school, you will also receive a free membership the first year after graduation and reduced membership for the two years following the free year. You will have access to all of the information on the IVAPM Member Portal section of the website, including a student-specific page with educational material and suggested learning activities and on the member and student member Facebook pages. We are also sending letters to faculty at your school with the hopes of acquiring faculty advisors to work with you. If we identify an advisor, we will put you in contact with that faculty member. If you already have a faculty member in mind, please share this information with them.

If you are interested in starting a chapter or student membership program at your school, please let us know. If you already have a student chapter, THANK YOU! We should be reaching out to you soon but, in case we lag behind, please feel free to contact us at [Info@IVAPM.org](mailto:Info@IVAPM.org).

For more information on IVAPM Student Membership/Chapters, visit [IVAPM.org](http://IVAPM.org). Under Professionals, Student Chapters, you will find a full description of student/advisor membership and guidelines for forming a chapter.

In case you are new to the IVAPM, we are an organization of veterinarians and veterinary nurses/technicians from all areas of veterinary medicine who have a strong interest in the relief of animal pain. We encourage you to visit our site for complete information about the organization.

Our deepest thanks for your consideration and we hope you join the IVAPM Student Membership/Chapters program!

Sincerely,  
IVAPM Student Chapter Committee

Tammy Grubb, DVM, PhD, DACVAA  
Kristen Cooley, CVT, VTS (Anesthesia/Analgesia)  
Gwen Francisco, BA, MFA, LVT  
Anne Jillson, DVM Student, Midwestern University College of Veterinary Medicine
